

Hello, there, my name is Irena and I am extremely excited to join the Renown team as an ECT in the Koala Room.

I started working in Early Childhood Education in 2018, and since then I have absolutely loved watching children grow and develop each day, and it brings me so much joy to be part of their amazing learning journey.

I am passionate about providing a fun, inclusive and healthy environment for the children, while actively supporting their social and emotional development. I highly encourage critical-thinking and emotional development through a variety of experiences, and you can often see me engage in meaningful conversations with each one of the children.

I am currently doing my Master of Learning Intervention and would love to use my knowledge and skills to provide better learning opportunities through inclusion and ongoing support.

In my spare time, I love reading books, catching up on TV shows, go for long walks, road trips and exploring different cuisines with my friends.

I cannot wait to see what the new year brings and I am looking forward to meeting you all in the year ahead.
