

Meet the Teacher

LAURA

Hello!

My name is Laura and I am the teacher of the Echidna program! I have been teaching at Renown for a long time and absolutely love it. It is my second home and I have been lucky to work here since 2016. I have taught for many years in the 3 and 4 year old programs and have lots of experience with both age groups.

I have a background in special needs, spending some years teaching in an early intervention program. This is an area that I am passionate about and believe in implementing many strategies to assist a variety of learners in my classroom.

Cooking is my passion you will always see me cooking with the children! It's my favourite thing to do and I love how much the children can learn when they cook.

I love literacy, reading stories, singing songs, using puppets and dancing. It's so important for children to learn through music and I love to incorporate this into my teaching. I spend a lot of time focusing on developing the social and emotional skills of my children and assisting them in developing stronger self-regulation skills.

I am married and have two beautiful daughters. My 4 year old Rose attends Renown and loves spending time here. I also have a one year old daughter named Mia and a cat named George :) I love to go on walks, go to the park and have fun with my family. I love summer and the sun. I love eating and cooking, it's one of my passions to cook for my family. I love to travel and have enjoyed seeing many parts of the world which I hope to do more of one day.

I look forward to getting to know you and your children and having a fantastic year together in 2025!
