

Beth

My name is Beth, and I am very excited to be joining the Renown community in 2025 as an educator in the Wombat program.

I recently completed my Master of Teaching (Early Childhood and Primary) qualification and feel extremely fortunate that my final placement was at Renown. I am the proud mum of Violet (13), Leo (10) and Bear (our dog!) and through my studies have juggled family life with work as an education assistant. I love to read, travel, take Bear for long walks in Melbourne's beautiful parks and gardens, and spend quality time with my family and friends.

As an educator and a parent, I believe positive, collaborative partnerships between teachers, families and the broader community are extremely important. I place great value in play-based learning, and I am passionate about nurturing critical and creative thinking skills, growth mindsets and kindness. I love to explore and extend children's strengths and interests, and to create inclusive and engaging learning experiences, where everyone feels supported, appreciated and has a whole lot of fun!

I am looking forward to getting to know you and your children over the coming year as we learn, laugh and grow together.
